Introduction

Published semi-annually, the *Notices of the International Congress of Chinese Mathematicians* bring news, research, and presentation of various perspectives, relevant to Chinese mathematics development and education.

Readers of the *ICCM Notices* will find research papers on various topics by prominent experts from around the world, interesting and timely articles on current applications and trends, biographical and historical essays, profiles of important institutions of research and learning, and more.

The *ICCM Notices* is for everyone—whether of Chinese background or not—who is interested in following Chinese mathematics.

Please note: We are able grant online-content access to institutions (via IP address ranges), but we are *not* normally able to grant online access to private individuals. Therefore, online access to the contents of the *ICCM Notices*, and to that of our other journals, is normally limited to institutional subscribers.

Aims and Scope

The official periodical of the ICCM organization. Bringing news, research, and presentation of various perspectives related to Chinese mathematics development and education. For all who are interested in following Chinese mathematics.

Publication

Publishing since 2013.

2 issues per year, in July and December.
